I'd go but have less than \$8 to my name and have been living on credit cards for two months. Not even gas money, otherwise I'd bring my rifle and 500 rounds to march with you glorious pedes. This shut down destroyed 15 years of financial progress, but at this point I'm on the verge of nothing left to loose.

I'm not here to complain, but Soros bussed in and paid for faggots to burn shit down.

Will be standing by in Austin and have zero issues putting down commies like rabid dogs that want to start shit in Lone Star land.

spez: to all the beautiful pedes that messaged me. I thank you, there is a lot to pray and think over. The out pouring of support in our Great Community is yuge.

We've already won, we're going to fight and keep it.

I'm relatively new to TDW, not sure how to search for the posts I was reading that stuff on! I can't find them now either, been buried in all the hype. All I can say is there are good people here, ask and you shall receive. Maybe you're better with the search function than I am. I'm sorry for not coming with the links!

When you see a post that you think you might need or want later look underneath of it. There's a series of options, click "save" and it will give you a pop-up menu of what category you would like to save it under. When you need it

again later, click the  in the top, upper right part of the screen and go to “saved posts”. Hope this helps some. I’m still learning myself.

In Trumps next term we need to stop fucking around. The reason commies get so many votes is women and non white voters. It's time to go back to what the founders intended. Only land owning American males should be voting.

This isn't another "stop the steal" rally or "lets show how peaceful we can be" protest. It's the real deal.

The supreme court refused to even take the Texas case because they **knew** it would win and the meltdown from the left would be biblical and they were scared.

1. EXPECT TO WALK. DC will shut down the metro and busses. Especially if they think people will be coming armed, which, yes, we are. Getting into the city is going to be very challenging. ***My suggestion is to rent panel trucks and load them up as impromptu busses.*** Also, SANITIZE YOUR VEHICLES. Antifa backs down from stand-up fights, they will instead go out to the hotels and look for Trump vehicles and smash them. *Consider renting a car in an adjacent state and using that.*
2. FORM ELEMENTS, AND THEN FORM GROUPS OUT OF YOUR ELEMENTS. ***DO NOT LEAVE YOUR ELEMENT.*** Baofeng radios are not ideal, but they should help you keep in contact with your element. Your element should be between five and ten, at least some of them heavy-hitting niggas. If you are armed, the only way you'll get through is with force, and that's why you need to form an army. If you are armed, stick with an armed element. If you are not, avoid the armed elements. But the overall message here is DO NOT GET ISOLATED. If you are armed, especially, and you are alone, the cops will pick you off one-by-one.
3. GAS MASKS. You'll need them.
4. REMEMBER THE FOUR RULES. I don't want to hear a fucking NFAC friendly fire incident.
5. CLAD YOUR HEART IN IRON. Anyone saying "We don't chimp out, we're civilized!" is the fucking enemy at this point. You know why politicians are scared of the left, but don't give a fuck about us? Because we're pussies who believe in this Blue Line faggotry, who they know that no matter what happens, we won't burn shit and break things. If you show up armed, your \$8,000 Crye kitout will mean nothing if you just plan

to scream at the sky and go home. They'll just be reminded even stronger that we will roll over for these globalists and traitors.

6. CONSIDER LEAVING YOUR CELL PHONE AT HOME. Get a GoPro if you want to record things. But your cell phone will 100% be used to track you and geolocate you for snatch-and-grab later. If you're unarmed, you're probably okay, but if you're armed... **DO. NOT. BRING. A. FUCKING. CELL. PHONE.**
7. CONCEAL YOUR IDENTITY. Wear masks. Yes, all of you. DC has the most sophisticated and widespread surveillance systems in the country. Every single fucking face is going to be identified and indexed. Facial recognition can find you just based off of your eyes (lower confidence but still gets them in the ballpark). DC is going to be cold, so wrap up. If you're armed, wear balaclavas, glasses, etc. Leave no part of your face visible.
8. BRING SUPPLIES. Hard-hitting niggas, maybe toss an MRE in your bag. Bring FlexiCuffs. I have absolutely no idea what the cops are going to do but I'd prefer they be physically overpowered, mobbed, disarmed, and detained.

The good thing is that we have a few weeks to plan and coordinate. It's not just being thrown together 2-3 days before. There will be lots of information, websites and other resources popping up over the next couple weeks to help us achieve this goal. I wouldn't doubt to see some rich patriots getting involved.

This will be a historical moment in the WORLD and we get to be part of it.

Success will only be measured by forcing the DC rats to submit to our voices. We don't accept the results of the election and we know that Biden is not a legitimate winner. They will NOT be allowed to hand him that powerful office!

If you dont plan on getting a rental car, review the following DC metro map:

<https://www.wmata.com/schedules/maps>

Many of the areas surrounding DC are heavily populated with lots of hotels grouped in the same area, with lots walking distance from a DC metro station.

I would strongly suggest renting a large truck like a UHaul and using them as busses to get armed patriots into the city. DC will shut down all transit, and it's a really long way to walk, and cops will be picking you off the entire way.

And record everything!!! If you are going armed, or unarmed, but especially armed, make sure to either have a body cam or be with people who do. If some type of stand off does happen, and shit pops off, it needs to be documented that the state once again overreached, and shit all over the constitution and more importantly Big R God given human rights. If the state attempts to illegally detain, and/or murder someone on camera for doing nothing other then peacefully exercising their constitutional rights, the consequences of their tyranny needs to be on film for all to see.

That's a really good idea! Also, use online secondhand marketplaces to raise cash quickly. Facebook (I know, but make it work for you for once), ebay, ecrater, etc. Don't sell anything you're gonna regret later, but something you can replace later you can live without today. Take it from me, always check values on things. Things you think are worth something usually aren't, and those you think aren't, are. Especially, for instance, those little bonuses you would get with video game purchases you tossed in a drawer. Some can get really high dollar values. Old lego sets. Don't hawk them, you won't get shit. Always better to handle yourself. And this time of year is when people are buying.

In crystal city, theres a corridor of hotels that defense employees use.

If youre on a budget, look at DC metro stations that extend further out on any of the lines.

Rule of thumb, the further away you get from DC, the areas where the hotels are grouped together in the same 1-2 mile area tend to be lower rates. It's still very convenient to get in to DC, you walk to the nearest DC station and take your route in.

Fucking SWAT could show up. They also have the most sophisticated surveillance system in the country. Don't bring your phone, they can geolocate you. Don't text any discussions or plans.
